

Who are we?

VGH & UBC Hospital Foundation is Vancouver Coastal Health's primary philanthropic partner, raising funds for specialized adult health services and research for all British Columbians. We partner with donors to drive innovation and sustainable health care at VGH & UBC Hospital, GF Strong Rehab Centre, Vancouver Coastal Health Research Institute and Vancouver Community Health Services. Further information about the Foundation is available at www.vghfoundation.ca.

The Finance & Accounting Department supports the mission of the Foundation by ensuring timely and accurate financial forecasting, processing and reporting. It professionally and proficiently delivers diligently in the background, in a core supporting role, to ensure the financial and fund management operations run smoothly and all regulatory filings are current so other departments can focus on their objectives and raise philanthropic dollars for health care through our Foundation.

The department manages assets in excess of \$400 million with annual revenues of \$80 to \$100 million. The 700+ fund balances exceed \$177 million and the value of the Endowment Fund portfolio is \$134 million. The senior leadership and Board of Directors rely on the Department's financial reporting and recommendations to guide decisions on both short and long-term strategy and to develop policies to direct Foundation activities.
