

VGH+ Your Legacy

Leave a gift of securities to fuel groundbreaking research and life-saving care for generations.

“As a cancer survivor, I have seen first-hand the power of philanthropy in health care, this is why I’m giving back in all the ways I know how.”

Nancy McKinstry

Nancy McKinstry defined self-made success, but after retiring, she faced ovarian cancer.

She turned to OVCARE, one of the world’s leading ovarian cancer research centres. Their team supported her through three months of chemotherapy and 35 radiation treatments. When Nancy got her second chance, she knew she wanted to give back.

Now, Nancy’s making a gift of securities to support research that saved her life. It’s a tax-effective way to give now and in the future, and we make the process simple.

Most securities are held electronically and can easily be transferred from your brokerage account to a brokerage account held by VGH & UBC Hospital Foundation. You will then receive your charitable tax receipt.

Join donors like Nancy and power healthier communities for the next generation.

Your legacy gift will:

Maximize your impact and avoid capital gains tax

Secure benefits to reduce the tax burden on family

Deliver future cures and better care
